

BLAST THE BLASTERS!

*The following companies have been issued permits to harass or harm at least **396,875***

marine mammals, and only require one more signature from the Bureau of Ocean and Energy Management to blast the ocean with horrific sound in search for oil and gas.

SAMPLE LETTER

I, [First and Last Name], am a citizen of [Town and State]. I strongly oppose seismic testing in the Atlantic Ocean because _____ . I encourage you as the CEO of your company to withdraw the permit applications submitted to the Bureau of Ocean and Energy Management and stop seismic testing in the Atlantic Ocean.

In honor of World Water Day, I hope that you understand the dangers from seismic blasting. Seismic testing will harm marine ecosystems and marine animals because of the nature of the tests. Seismic testing will diminish resources available to coastal communities and impact fishing and tourism industries that are vital to our coastal economies. Seismic testing is a gateway drug to increased oil and natural gas exploration and development that will escalate climate change and pollute the ocean.

In the name of the future health of the planet, withdraw your permit applications. I will be monitoring this process, and I look forward to your reply to my concerns.
